This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the					
of an underground source as heretofore granted under Permit 24469, Certificate 7845 is issued subject to the terms and conditions imposed in said Permit 24469, Certificate 7845 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.  Annual reports of water use shall be submitted to the State Engineer in January of each year.  The total combined duty under this permit and Permit 34905 shall not exceed 282.4 acre-feet per year.					
The amount of water to be chang					
to exceed 0.621		cubic feet per secondbu	t not to exceed 282.4		
acre-feet annually.					
Actual construction work shall beg	in on or before		December 13, 1978
